

Addition Table of
FOUR

(in numerical order)

$4 + 1 = \underline{\hspace{2cm}}$

$4 + 2 = \underline{\hspace{2cm}}$

$4 + 3 = \underline{\hspace{2cm}}$

$4 + 4 = \underline{\hspace{2cm}}$

$4 + 5 = \underline{\hspace{2cm}}$

$4 + 6 = \underline{\hspace{2cm}}$

$4 + 7 = \underline{\hspace{2cm}}$

$4 + 8 = \underline{\hspace{2cm}}$

$4 + 9 = \underline{\hspace{2cm}}$

Addition Table of
FIVE

(in numerical order)

$5 + 1 = \underline{\hspace{2cm}}$

$5 + 2 = \underline{\hspace{2cm}}$

$5 + 3 = \underline{\hspace{2cm}}$

$5 + 4 = \underline{\hspace{2cm}}$

$5 + 5 = \underline{\hspace{2cm}}$

$5 + 6 = \underline{\hspace{2cm}}$

$5 + 7 = \underline{\hspace{2cm}}$

$5 + 8 = \underline{\hspace{2cm}}$

$5 + 9 = \underline{\hspace{2cm}}$

Addition Table of
SIX

(in numerical order)

$6 + 1 = \underline{\hspace{2cm}}$

$6 + 2 = \underline{\hspace{2cm}}$

$6 + 3 = \underline{\hspace{2cm}}$

$6 + 4 = \underline{\hspace{2cm}}$

$6 + 5 = \underline{\hspace{2cm}}$

$6 + 6 = \underline{\hspace{2cm}}$

$6 + 7 = \underline{\hspace{2cm}}$

$6 + 8 = \underline{\hspace{2cm}}$

$6 + 9 = \underline{\hspace{2cm}}$
